REPORT OF LIBRARY TRUSTEES

During the year of 1965, the Davis Public Library was open on Saturday evenings from 7:00 P.M. to 8:00 P.M. The number of books drawn during the summer months averaged between twenty-five and thirty per evening, taken by residents and non-residents, and included fiction, non-fiction and juvenile.

Throughout the school year, the Library was open on Wednesday afternoons from 3:00 P.M. to 4:00 P.M., to enable the school children to obtain books, which has been accepted very well, and from twenty to twenty-five books per week were drawn.

The Bookmobile comes to the Library every six weeks, in order to exchange old books for newer material.

Reference books are also picked up on request.

A donation of twenty-five books was made by Dr. Kirber of Philadelphia, Penn., which was greatly appreciated.

Books drawn through 1965: Fiction, 291, non-fiction, 49, Juvenile, 301.

The Library Trustees authorized the painting of the exterior of the Library last spring, using money from the library band funds, there being no provision in the 1965 Town budget for such a necessary repair.

The Trustees also obtained a weekly janitor service, the need for such a service due to the increased use of the library by other groups for meetings, plus the regular library hours.

REPORT OF THE MONADNOCK REGION ASSOCIATION

To the Town of Stoddard

The Monadnock Region Association maintains a building of its own at the junction of Routes 202 and 101 at the Peterborough By-Pass. This combination showroom and information center is staffed by a full-time receptionist-office secretary and an executive secretary who divides his time between the office and the field.

Aside from fixed charges and overhead, the bulk of the money received is used for promotional work, and includes such items as 30,000 Regionaires, 30,000 summer folders, 25,000 fall foliage folders, and tour maps, 25,000 winter ski and sports brochures and maple syrup bulletins. Four season vacations are emphasized. Apple blossom, Laurel and Fall Foliage tours are publicized and posted in season.

The Association sponsors 4-H activities, high school bands, the N. H. Philharmonic Orchestra, agriculture, industry, and the hotel-tourist trade. In addition, as occasion arises the Association lends its weight for better roads, better and more picnic areas, better hunting and fishing with protection to land owners, better forestry practices and, in short, for all things that tend to make the Region more livable and attractive.

Our exhibition facilities are open and available to anyone in the Region. The local public, as well as the tourist public, are welcome at headquarters anytime.

REPORT OF TRUSTEES OF TRUST FUNDS

Due to the increase severity of the drought in the past summer, it was thought best to limit the cutting of the grass, so as not to lose what we have. Nothing was done about loaming or reseeding, as there is no water supply to keep the ground moist, for the growing of seed.

It is felt that if a good growing year should present itself that there is more than enough funds to carry out this project.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Stoddard:

It is a pleasure for me to present my twelfth annual report for your consideration.

Federal

Prognostication, particularly in this era of rapid change is, at its best, a dangerous pastime as any weather man will attest. However in my occupation, as in several others, keeping abreast of the times requires this activity, using the best available information to formulate a prediction.

Last year, in my report, I was only half right when I predicted that Congress would pass legislation for certain activities. I based my assumption on the apparent necessity for States and Local school districts to receive aid to curtail rising local assessments. Congress did pass the now well known "Elementary and Secondary Education Act" which included financial support. They did not, however, provide for any financial support of existing educational programs. Congress, whether right or wrong, accepted the proposal made by our present leaders that education in this Country was not keeping up with the scientific and technical advancements of society and, therefore, creating sociological and economical problems. The result of this thinking was P. L. 89:10 with its five titles. I will deal with only titles one and two inasmuch as those are the only ones with which we are directly involved this year.

Title One contributes funds on the basis of the number of low income families in the town to provide some kind of educational service not now existing or the expansion of a present program. Under the statues this program has to be aimed at the financially and educationally deprived youngster and the amount of money available to each Community is based on the number of those people residing in the town.

It would appear that there is a small number of qualifying families in the area which results in extremely small funds available to our area Communities. In some instances this could result in a Community not implementing a Title One program.

Title Two is not a poverty program, but one of outright grants, established to upgrade the library resources available in Supervisory Union #24. All materials purchased under this grant remain the property of the Supervisory Union and each school is used as a depository for these materials. Books and other materials may, and should be, transferred from one school to another within the Union as a need arises.

I make no attempt to defend or criticize federal aid to education. P. L. 89:10 is but one of the many programs financed by the federal government. Some of its programs I like and some I dislike with a passion. However, since federal grants are available the district should make a determination as to whether it should utilize such funds as may be available to it.

State

Earmarked sources of revenue are not always what they are cracked up to be. Such is the case with the Sweepstakes. Last year we were advised to prepare our budgets on the bases of $3,600,000 State Income. With an assist from the federal government, we received slightly over 50% of that amount. Now I realize that all small contributions should be gratefully received, but when the legislature provides for education what would appear to cover the increased cost of education in the state for one year and a little over half of that amount is received, what happens? The local tax payer has to make up the difference and that is just what you did last year.

The 1967 legislature will be faced with seeking new sources of revenue. Unfortunately, it seems to be a good gimmick to tie any form of taxation to support for education. This should not be done. All revenue should go to the general fund and financial support for the various state services obtained from this source.

Again I submit the State Department of Education's figures for the State average per pupil cost on which tuition charges are based. You will recall that these do not include expenditures for transportation, debt service or new equipment.

Year	High School	Elementary
1961-62	$436 00	$265 00
1962-63	457 00	279 00
1963-64	449 00	295 00
1964-65	467 00	311 00
1965-66	489 00	328 00
1966-67	521 00	351 00

Some school districts in the state with the use of a state approved formula have indicated that their tuition charges for 1966-67 will be over $600 with one as high as $670.

I suspect that these increased costs have done much to encourage school districts to study the possibility of joining with other districts in their educational endeavors. Again this year new Regional School Districts will come into being and some will be voted on at the March meetings.

This area again is being involved in a study. This time Henniker, Weare, Hillsboro-Deering, Antrim and Bennington have been invited to study the possibility of a cooperative venture. Something of this nature will probably be the eventual outcome, but whether accptable to the citizens of the area at this time is dubious.

Local

Stoddard pupils attend school in four different districts: Grades 1-6 in Stoddard, Grades 7 & 8 in Peterborough and high schools pupils go to Keene, Peterborough and Hillsboro-Deering. Your study committee has been faced with this complex set up as well as the road locations within the town boundaries in attempting to determine whether a change in the present operational procedures should be recommended. Now comes new thinking in the potential for the housing of youngsters in this area for educational purposes. The Monadnock Regional School District is interested in improving the

educational opportunities and facilities in the Gilsum area and in the near future plan to meet with the Gilsum, Marlow and Stoddard representatives to determine whether there is any interest in these Communities in supporting such a venture. It is their hope to provide a one grade for teacher situation, which is so desirable in an elementary situation. I hope the Stoddard Study Committee will be retained to participate in these discussions.

REPORT OF SCHOOL NURSE

To the Stoddard School District:

I am submitting an account of the school nursing activities for the school year 1964-65.

Twenty-four pupils received examination by Dr. Mildred Chamberlin and the parents were notified of any recommendations for follow-up. Eye examinations were given with all children proving to be satisfactory.

To emphasize the continual need for proper dental care a movie, "Gateway to Dental Health" was shown.

Speech therapy for nine students was initiated. One student attended classes starting in March and the remaining eight attended a summer session.

I wish to thank the Superintendent of Schools, teacher, parents, and the School Board for their cooperation in the nursing program.

Sincerely,

GAIL N. JOHNSON, R.N.

School Nurse

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

Most of us who live in New Hampshire and the thousands of vacationists that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause over 880 grass and woodland fires to start in 1965. True this was a much dryer than normal year but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless acts. It is up to each one of us to be ever mindful that a spark of flame is a potential fire.

WE MUST ALL BE CAREFUL:

1. To teach our children the danger in lighting matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn rubbish or brush.
   a. Always get a permit to burn from the warden.
   b. Start your fire late in the day after 5:00 P.M.
   c. If burning a field or brush have equipment and adequate help on hand. The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundreds of acres of destroyed woodlands. Yours never to enjoy.
